EFFICIENT AND SUSTAINABLE

After five years of research and development, E-Stream, a wholly owned subsidiary of e.quikk Technologies, has developed what is in all probability the most powerful lithium-ion battery technology.

Investing in the e.quikk HIGH PERFORMANCE TECHNOLOGY

Superior durability • Fast charging • Excellent thermal management • High performance • SecondLife™ System

INVEST INTELLIGENTLY

By purchasing shares in e.quikk Technologies, you are playing a part in the development and potential of the market for renewable energies.

The provision of electricity from solar and wind power is only possible with suitable electricity storage options. This is because electricity from solar energy via solar panels, for example, is only generated during the day while consumption takes place throughout the day, especially during the morning and evening.

E-Stream has not only developed flexible energy storage systems for home, small business and industrial applications, but has also launched a unique technology. A technology that makes it possible to produce energy storage systems quickly, cheaply and, most importantly, with a long service life.

¹ See also:

<https://www.now-gmbh.de/en/projectfinder/h2easy>

The reuse of batteries using the SecondLife System™ provides cost advantages to users. This is the first time that a functional and environmentally friendly circular economy has been achieved.

e.quikk battery storage units can be used in mobile applications, at home, at work and in industry. They are suitable for (fast) charging electric vehicles and are ideally suited for use in vehicles.

New applications are being developed within the framework of joint research and development projects in cooperation with renowned industrial partners such as the Fraunhofer Institute and the substantial financial support of the German government.¹

Superior durability • Fast charging • Excellent thermal management • High performance • SecondLife™ System

THINK GREEN SECOND LIFE

The e.quikk technology won the Green Concept Award 2022. The SecondLife™ technology of e.quikk makes it possible to remove battery cells that have already been used in high-performance and industrial applications but still have a residual capacity of approximately 80–90%. Due to the batteries' construction kit principle they do not have to be discarded but can be used for other purposes such as home and commercial storage.

ENERGY PRICES REPRESENTING AN OPPORTUNITY

In an age of exploding energy prices, e.quikk's energy storage systems offer their customers significant cost savings through self-generated energy.

In the past, a number of cleantech companies have established themselves worldwide and generated substantial returns for many investors.

Enter a market with a promising future! Request further information about our share package now with no obligation and convince yourself of this attractive capital investment in times of low interest rates. An investment that has the potential to increase in value.

KEY DATA ON THE ISSUING

- High earnings potential
- No processing fees for investors due to direct acquisition
- Transfer to your securities account or optional custody in the register
- 5,000 euros minimum subscription amount
- Limited volume
- ISIN: NL00150018C3

Published prospectus available at:

https://www.equikk.com/wp-content/uploads/2022/12/e.quikk-Technology_Prospectus_13.12.2022_PDF.pdf

The approval of the Prospectus by the competent regulatory authority is not to be construed as an endorsement of the shares offered. Prospective investors should read the Prospectus before making any investment decision in order to fully understand the potential risks and rewards of the decision to invest in the shares. You are about to purchase a product that is not simple and may be difficult to understand.

Important notes

This promotional communication does not constitute an offer or invitation to purchase or subscribe for securities in the United States of America, Australia, Canada, Japan or any other jurisdiction in which an offer is not permitted by law. This promotional communication is not an offer of securities for sale in the United States of America. Securities may be offered or traded in the United States only with prior registration, or without prior registration pursuant to an exemption from registration under the U.S. Securities Act of 1933, as amended (the "Securities Act"). There will be no public offering of the securities referred to in this announcement in the United States of America. The securities referred to in this announcement may not be offered or sold in the United States, Australia, Canada or Japan or to or for the account or benefit of persons resident or domiciled in the United States, Australia, Canada or Japan.

This promotional communication does not constitute an offer to sell or a solicitation of an offer to buy any securities. An offer is made solely by means of and on the basis of a prospectus to be published, supplemented by additional information relating to the offer outside the Netherlands. The prospectus will be available free of charge from e.quikk Technologies N.V., Strawinskyalaan 3051, Atrium Building, 1077 ZX Amsterdam, The Netherlands (hereinafter also "e.quikk" or "the Company") or on the website of e.quikk Technologies N.V. at <https://www.equikk.com/investor-relations/>.

This promotional communication contains certain forward-looking statements. These statements are sometimes, but not always, identified by the use of a future date or of words such as "will", "may", "should", "expects", "believes", "intends", "plans", "prepares" or "aims" (including in their negative form or other variations). Forward-looking statements are by their nature prospective, speculative and involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. There are a number of factors that could cause actual results and developments to differ materially from those expressed or implied by such forward-looking statements. All subsequent written or oral forward-looking statements attributable to e.quikk Technologies N.V. or the respective persons acting on its behalf are expressly qualified in their entirety by the foregoing factors. There can be no assurance that the forward-looking statements in this publication will be realised. All forward-looking statements are made as of the date of this promotional announcement. The Company undertakes no obligation to update any forward-looking statements contained in this promotional communication. In addition, it should be noted that all forward-looking statements are only made as of the date of this Prospectus and that neither the Company nor any bank and/or securities institution (the "Institutions") undertake any obligation, except as required by law, to update any forward-looking statements or to conform any such statements to actual events or developments. Both the Company and the Institutions and their respective affiliates expressly disclaim any obligation or responsibility to update, revise or revise any forward-looking statements contained in this announcement, whether as a result of new information, future developments or otherwise. Institutions are acting solely for the Company and for no one else in connection with the Proposed Capital Increase. In connection with the proposed rights issue, the Institutions will not consider anyone else as their client and will not be responsible to anyone other than the Company for providing them with the protections they provide to their clients or for providing advice in connection with the proposed rights issue, the contents of this offering circular or any other transaction, arrangement or other matter referred to in this offering circular. In connection with the offering of the Shares, the Institutions and any of their affiliates may take a principal position in a portion of the Shares in the Offering and, in such capacity, may hold, purchase, sell or offer for sale for their own account such Shares and other securities of the Company or related investments in connection with the Offering or otherwise. Accordingly, references in this advertisement to the issue, offer, subscription, acquisition, placing or otherwise dealing in the Shares shall be construed as including an issue or offer to, or a subscription, acquisition, placing or dealing by, the Institutions and their affiliates acting in such capacity. In addition, the Institutions and any of their affiliates may enter into financing arrangements (including swaps, warrants or contracts for difference) with investors in connection with which the Institutions and any of their affiliates may from time to time acquire, hold or dispose of Shares. The Institution does not intend to disclose the extent of any such investments or transactions unless required to do so by law or regulation. Neither the Institution nor any of their respective officers, employees, advisers or agents accepts any responsibility or liability or makes any warranty, express or implied, as to the authenticity, accuracy or completeness of the information contained in this Prospectus (or as to the absence of information contained in this Prospectus) or any other information about the Company, whether in writing, orally or in a visual or electronic form and regardless of the manner in which it is transmitted or made available, or for any damages whatsoever (howsoever arising) arising out of or in connection with the use of this Prospectus or its contents.

The contents of this promotional communication are for general information purposes only. It does not constitute an independent financial analysis or financial or investment advice, but merely a promotional communication. The information should not be relied upon as the basis for any investment decision. In particular, the information contained in this promotional material does not constitute investment advice or an investment recommendation with regard to a specific security or financial instrument, nor does it constitute a solicitation to hold or sell specific securities or to make any other legally binding declaration of intent (to buy or sell). The information does not qualify as an investment recommendation or investment strategy recommendation within the meaning of Section 85 (1) of the German Securities Trading Act (WpHG) in conjunction with Article 3 (1) numbers 34 and 35 of Regulation (EU) No. 596/2014; said information is of a non-binding and informative nature only. Therefore, they do not fulfil all legal requirements for investment recommendations and investment strategy recommendations and their preparation. In particular, the contents of this promotional communication do not take into account the individual investment objectives or financial circumstances of the individual investor. The valuations, estimates and forecasts reproduced in the content and information reflect the subjective opinion or assessment of e.quikk Technologies N.V. only, may be subject to change at any time and are made without guarantee. Insofar as this advertising material contains a presentation of the value or price development of financial instruments or other investment items, this is for information purposes only. The information is also not intended to serve as legal, tax or other advice, among other things. Before making investment decisions, you should carefully inform yourself about the opportunities and risks of the investment. This may concern not only the financial aspects but also the tax and legal aspects.

IMPORTANT INFORMATION: Past performance or simulations are neither an indicator nor a guarantee of future performance. Please note in particular that an investment in shares is associated with various risks which are described in the prospectus to be published. Furthermore, e.quikk Technologies N.V. shall not be liable for any loss suffered directly or indirectly by the reader of this promotional material as a result of an investment decision made on the basis of the contents of this promotional material. An investment decision regarding the shares of e.quikk Technologies N.V. must be made solely on the basis of the prospectus to be published and the summary.

RISK NOTICE: The shares are a capital investment with the risks described in particular in the associated prospectus. In principle, a loss of the invested capital cannot be ruled out. Additional information on this product is contained in the Prospectus to be published and the Summary, which can be found at www.equikk.com/investor-relations/. Please read the Prospectus and the Summary carefully and take them into account in your decision before making any decision to purchase the Shares. To the extent that changes occur at e.quikk Technologies N.V., there is no right to cancel the acquisition of the shares.
